Additional insurance to cover the value of the semen may be purchased at the carrier's rate (usually UPS, FedEx, or Air Cargo), however, **many carriers will not insure perishable goods**, so insurance may not cover loss of the items shipped, if this occurs. If you wish to insure the contents, please indicate the amount, knowing the carrier may not honor the claim: \$ _____. **Please note, ICSB makes no guarantees, expressed or implied, that conception will occur, or that the frozen sperm cells are viable or will remain viable at the time of, or after, the cells are frozen. PROCEDURES FOR UTILIZING YOUR STUD DOGS FROZEN SEMEN

When you wish to utilize the frozen semen you have stored at ICSB, the following steps should be followed in order to ensure that shipping and artificial insemination are carried out efficiently:

1. Check your account with ICSB. Your account should show a zero balance in order for frozen semen to be released for shipment. If you have any questions about your account, please call 863-956-5700.
2. Notify ICSB early in the bitch's estrous cycle. For example, on the first or second day that you notice a red vaginal discharge from the bitch, send ICSB a completed Frozen Canine Semen Release Form.
3. Allow 3 to 4 days for shipment of the frozen semen. Usually, ICSB can ship sooner than this; however, allow a safe margin of time for the shipment to be handled. It is very difficult, or may be impossible, to ship with just one days' notice before a bitch needs to be bred, or on a holiday or weekend. For shipments requested with less than 2 days' notice, or ASAP, an additional handling Stat Fee is charged. (Normally a 24-hour period of time is required to charge the shipping tank prior to retrieval of the frozen semen and transfer to the shipping tank.
4. When you request ICSB to ship your dog's frozen semen, please be sure you complete this form, listing the name, address, and telephone number of the shipment destination. Specify how many vials of semen to release for shipment. In most cases, 1 or 2 vials are shipped. We accept Visa, MasterCard, Discover, or American Express for the shipping charges, and usually the bitch owner will pay for the preparation and shipping of the frozen semen. In some instances cash, cashiers check, or a money order may be required for pick up of frozen semen. Please note that ICSB cannot release frozen semen without the completed Frozen Canine Semen Release Form. **Please note, a completed Frozen Canine Release Form is not a Transfer of Ownership.**
5. ICSB will arrange for the shipping of your dog's frozen semen. If ICSB does not have a trained inseminator close to the bitch to be bred, then we will provide detailed written instructions and telephone assistance. We have many litters resulting from artificial insemination by untrained inseminators. The retrieval and thawing of the frozen semen involves just a few steps and is not difficult.
6. Shipping charges, tank rental, and return are ultimately the responsibility of the semen owner. It is often very expensive to ship frozen canine semen; if cost is a concern, please call for a shipping estimate. We are happy to provide an approximate quote for shipping. At this time, we ship the frozen semen one of three ways: UPS, FedEx, or Air Cargo. For domestic shipping, there is a tank rental charge of \$75 (some Veterinary clinics will be higher) for the first 7 days, beginning on the day the tank leaves our facility. On the 8th day, a daily tank rental fee of \$15 is charged until the tank is returned or until the replacement cost of the tank is reached. We recommend for the semen owner to emphasize the rental fee to the recipient, and that it is necessary for the bitch owner or veterinarian at the bitch's location to return the shipping container as quickly as possible to avoid additional rental charges.
7. In the event of loss or damage of frozen semen due to weather, fire, storage/shipping tank failure, or shipping accident/damage, ICSB will not be held liable for the loss or the replacement value of the frozen semen. Prices subject to change without notice.
8. Sperm cells will eventually cease living, but no one knows or can predict when this will occur, and it can vary from dog to dog. ICSB-FL shall not be held liable for, and cannot guarantee conception from, frozen canine semen. Nor can ICSB-FL guarantee that the frozen sperm cells will be viable at the time of thawing for insemination. ICSB is not responsible for differences in thaw rate and quality of sample as determined by inseminator.
9. ICSB cannot be held liable for any damages to semen once the semen is released from ICSB.
